SPANISH GOVERNOR
OPERATES BAKERIES

(Correspondence Associated Press)
MADRID, Feb. 26.—The civil governor of Madrid has been operating the bakeries of the Spanish capital since the strike of bakers in December. The proprietors said that they could not make any profit if they granted the wages demanded by the strikers.

WILL ANSWER
FOR PERJURY

The governor's office has issued an executive warrant for James F. Grondley to be extradited from the state of Illinois. Sheriff Sam Gay of Clark county asked for the papers. Grondley secured a divorce from his wife in Clark county, she being personally served on a trip to the Nevada town from Los Angeles. Following the service a divorce was granted. It was then contended that Grondley had committed perjury in his evidence, both as to residence and complaint. His return is demanded under this indictment.

Following the Nevada divorce Grondley left for Illinois where he married a young woman by the name of Helen Kelly. The second wife is the daughter of a millionaire coal producer. The first wife alleged she was deceived in the service and that perjury was evident in the sworn complaint.

**HALF A MILLION
STARVE IN BUDAPEST**
(Correspondence Associated Press)
BUDAPEST, Feb. 18.—Figures have been made public here to show that about 500,000 persons are in want in this city. They include 50,000 war widows and invalids without means, 30,000 old and ill persons and 240,000 dependents upon these two classes.

IMPORTANT NOTICE

To Secretaries of Corporations Doing Business in Nevada
But Incorporated in Other States

NOT TOO LATE TO SAVE \$100 PER MONTH

SECTION 1.—All foreign corporations doing business in the State of Nevada shall, not later than the month of March in each year, beginning in the year 1914, publish a statement of their last year's business in some newspaper published in the State of Nevada. If published in a daily newspaper, such statement shall be published for a period of one week, or if published in a semi-weekly or tri-weekly newspaper, for a period of two weeks; or if published in a weekly newspaper for a period of four weeks.

SECTION 2.—The secretary of the company publishing the statement shall file a copy with the assessor of each county of the State of Nevada, in which said company is doing business.

SECTION 4.—Any district attorney in the state is competent to sue to recover the penalty, or the attorney general. The first county suing through its district attorney shall secure the penalty, and if no suit is brought for the penalty by any district attorney the State shall have the right to recover through its attorney-general.

THE TONOPAH DAILY BONANZA WILL MAKE PUBLICATION REQUIRED BY LAW, WHICH INCLUDES THE FILING OF A SWORN AFFIDAVIT OF PUBLICATION WITH THE ASSESSOR OF EACH OF THE COUNTIES OF THE STATE, WITHIN WHICH THE COMPANY IS DOING BUSINESS; AN AFFIDAVIT OF PUBLICATION WILL ALSO BE FURNISHED SECRETARIES.

CANNOT MAKE UP
SILVER DEFICIT

Dr. J. M. Schumann writes on "The Shortage of Silver" as follows:

"I am often asked the question by the layman, as well as financial interests: 'Why this phenomenal run-away silver market, and how long do you expect the present conditions to continue?'"

The average world production of silver between 1900 and 1909 was 175,000,000 ounces per year; from 1910 to 1913, inclusive, the average production was 225,000,000 ounces per year. In 1914 the production fell to 160,000,000; 178,000,000 in 1915; 162,000,000 in 1916; 167,000,000 in 1917; 178,000,000 in 1918, and 190,000,000 ounces in 1919, the year just ended. That is an average yield of 174,000,000 ounces, about similar to that of the decades ending 1890 and 1900. The total amount for these six years is 1,037,000,000 ounces.

Supposing the average yearly output of 225,000,000 ounces for four years of 1910 to 1913, to be the normal requirements, then we have here an indicated shortage of 313,000,000 ounces, close to a two years' output. This makes it fairly impressive. Besides from 1910 to 1919, inclusive, 510,000,000 ounces silver in excess of total world production were mined into coin.

This was only possible by making silver bars from 250,000,000 dollars in the United States treasury. Mexico did the same with 250,000,000 Mexican pesos, and probably of even more importance is the demand made by India and China for a settlement of an adverse trade balance. It is most lucky that, admitting the dis-

appearance of gold, these nations will accept silver.

Europe and America, as well, owe India over \$300,000,000. Their debts to China are almost as big around a total of \$250,000,000, payable in silver. Is it any wonder that such a huge sum, coupled by a prevailing premium on the rupee, and the decline of the pound, creates such a universal headache after the European debacle?

And last, but not least, what is the amount of silver required to back up the unsecured shipmasters of Europe and America? Will 1,000,000,000 ounces suffice, when some \$12,000,000,000 of unsecured paper money were recently issued?

What is now needed is a mathematician who can figure how, with a present yearly silver production of 190,000,000 ounces and a possible one of 280,000,000 ounces in the future can satisfy—

1. 300,000,000 a year, payable in silver to China and India.
2. 300,000,000 a year, for new silver coinage.
3. 60,000,000 a year, to industrial interests.
4. 100,000,000 a year, for years to come, to validate paper issues.

What must necessarily be the price of silver? Just now there is no indication of a large increase in supply. The fact that no sensational silver discoveries were made during 1919 and the unjust income tax on the miners would militate against an increase. New silver districts and revivals of old ones are imperative. It is imperative also to release the shackles of industry. Silver and silver only, can save the day and the question is squarely put up to capital and government.

The opportunity for the former is great. The duties of the latter are greater. It is swiftly becoming useless to further ignore silver as a money metal. The Orientals know and demand silver money. The world owes them money; the trade balances have worked against it. Why should it be bad business for capital to mine silver in the United States and send it to those peoples

CORN MENAGED
BY A NEW PEST

(By Associated Press)
WASHINGTON, March 12.—The enormous value of corn, the premier crop of the nation, has made it necessary for the government to take all possible precaution to prevent further infestation from the European "corn borer" which is supposed to have entered the country in shipments of broom corn and has established a limited foothold in the east and part of the country.

Large sums are being spent in an effort to control it and a ruling soon is expected from the federal horticultural board as to whether a quarantine shall be imposed against all foreign countries to prevent further entrance of stalks and ears of Indian corn, broom corn or other plants that may bring the borer. It would not apply to shelled corn or to the threshed seeds of the other plants.

MOONSHINE VICTIM
DIES IN AMBULANCE

Wood alcohol contained in "moon shine" whiskey, caused the death of Charles McAndrews of Medford, Ore. McAndrews died as he was being taken in an ambulance to the Washburn county hospital. He was in forested in claims at Lodi.

Who demand it, and incidentally make big profits, or do we prefer to send gold thus depleting our precious reserves?

It is difficult to see why the price of silver should decline. It is still more difficult to say when, from uniquely speaking, the bullion price of silver will settle somewhere between \$1.50 to \$1.75 per ounce, and a revision downward cannot be expected before 1940, if then, and maybe never.

ONE MAN POWER
DIRECTS LIFE
OF LIBERIA

(Correspondence of Associated Press)
LONDON, Feb. 23.—Liberia is truly a hermit republic, writes Alan Buchanan Lethbridge, author and traveler in the Daily Telegraph. The country, he adds, has no roads, no railways, no telegraphs, no steam boats on her rivers nor any practical exploitation of her wealth.

Logdons in Monrovia, the capital, virtually do not exist with the exception of one place which is conducted by the mayor. This man is an enterprising negro of North Carolina who besides attending to the duties of the mayor and conducting his hotel, operates an ice plant and an ice cream parlor which for many years has been profitable. From these latter his profits are said to be significant. He also has "something to do with the postoffice" and is a police court magistrate.

The fact, says Mr. Lethbridge, that this remarkable man, starting from nothing, has made himself a Rockefeller of Liberia.

Mr. Buchanan Lethbridge, the traveler, says, the traveler sees no horses, motors, rickshaws or other wheel vehicles; no street lighting, no drinking water and not infrequently food supplies for the European colony run out and strict rationing is enforced until the ship arrives.

During the 22 members of congress appear at parliament houses, supported by a black frock coat, patent leather shoes, white waist coat and top hat, they have a lot of \$5. The thermometer sometimes registers 110 in the shade.

No Waste Motion
Here

The packing business is noted for the elimination of waste in manufacturing.

Swift & Company is equally effective in saving waste in the distribution of products.

From ranch or farm to your meat dealer there is no loss of time, money, material, or motion.

Four hundred branch sales houses in large cities and towns, hundreds of regular refrigerator car routes reaching small towns, all directed by wire from a central point, bring meat products from our packing plants located in producing areas, to retailers in all parts of the country in the best possible condition, in the least possible time, at the least possible cost, and over the most direct route.

The total expense, for manufacture, freight, and selling direct to the retailer, is less than three cents per pound on all meat sold.

Our profit from all sources is only a fraction of a cent per pound.

Competition compels this close-cut saving. Large volume of business, a well-balanced, nation-wide organization, and expert attention to details by men who know, make it possible.

We are in your service—at least expense and profit.

Send for our 1920 Year Book and get the facts about our business. Address Swift & Company, Union Stock Yards, Chicago, Illinois.

Swift & Company, U. S. A.
